OBJECTIVE

Work in the area of Information Technology, leading solutions in software development, data analysis or technical support, with a focus on performance, scalability and delivery of real results. I seek challenging environments where I can apply technical expertise, generate direct impact on the business and continuously evolve. Total availability for travel and flexibility for remote, hybrid or face-to-face work.

EDUCATION

Bachelor's Degree in Computer Science
Salvador University – UNIFACS (7th semester – Evening)

PROFESSIONAL EXPERIENCE

- **Computer Support Analyst**
  Company: Mirasol Transporte e Armazenagem LTDA
  Period: Aug/2024 – Current
  • Service and technical support to users.
  • Preventive and corrective maintenance on equipment.
  • Support in networks, internal systems and collaborative tools.
  • Development of reports and dashboards to support management, using Power BI, Python, advanced Excel (with complex formulas, pivot tables and graphs) and macros in VBA.
  • Automation of routines and data extraction for analysis and improvement of processes.

- **Junior IT Analyst**
  Company: Mirasol Distribuição de Alimentos Refrigerados LTDA
  Period: Aug/2023 – Aug/2024
  • Support to administrative routines and information technology demands.
  • Technical support to users and collaboration in IT operational activities.

- **Junior IT Analyst**
  Company: Mirasol Transporte e Armazenagem LTDA
  Period: Apr/2022 – Aug/2023
  • Execution of administrative activities with a focus on technology.
  • Support to the IT team in basic routines and organization of technical documents.

COURSES AND QUALIFICATIONS

Technical Certifications – Ânima Platform (160 hours each):
• Computing environments and connectivity
• Data analysis and big data
• Computer graphics and virtual reality
• Data structures and algorithm analysis
• Mathematical structures
• Software management and quality
• Innovation, sustainability and business competitiveness
• Artificial intelligence
• Software modeling
• Software engineering models, methods and techniques
• Programming of computational solutions
• Systems Computational and Security
• Distributed Systems and Mobile
• Theory of Computation and Compilers
• Usability, Web, Mobile and Gaming Development

SENAC Technical Training:
• Systems Programmer (200h)
• Database Administrator (200h)

Ada Tech Training (Virtual School):
• Back-end in Node.js (23h)
• Front-end in React (46h)
• Digital Trail | Coders 24 | Back End (7 pm)
• Data Processing and Analysis (10 am)

Other Complementary Courses:
• Digital Technologies – UFPE (180h)
• Advanced Excel – Fundação Bradesco (50h)
• Administrative Assistant in Transportation – SEST SENAT (1,280h)
• Education and Technology – SEB (180h)
• ICT – SENAI (14h)
• Problem-Based Learning – MEC (120h)

TECHNICAL SKILLS

• **Programming languages:** Python, JavaScript, TypeScript, Node.js, Java, PHP
• **Frameworks and libraries:** React.js, Django
• **Databases:** SQL (MySQL, PostgreSQL)
• **Tools and technologies:** Git, VS Code, HTML5, CSS3, Office Suite, Advanced Excel, Power
BI• **Additional technical skills:** Data analysis, automation with VBA, distributed systems,
computer graphics and virtual reality

LANGUAGES

• Portuguese: Native

• Intermediate English: Reading and writing for academic purposes and systems documentation
